

Final Project Scoresheet

Name: _____

Category / Description	Points Earned	Points Possible
Code to reproduce results		
README file with directions on how to replicate the results		20
Automated compilation of figures / tables / other output		10
Exhibits good programming practices		5
Sanely organized		5
<i>Subtotal</i>		<i>40</i>
Written Report		
At least 10 pages (excluding References, Tables, and Figures)		10
At least 1 properly formatted equation		5
At least five references in the bibliography (with BibTex file)		10
Properly include in-text citations (using <code>\citet{bibkey}</code>)		5
At least 1 table and 1 graphical visualization		10
Compiled in LaTeX or Rmarkdown		10
Tables and Figures appear at back of document (after References)		10
Contains 6 sections: intro, lit rev, data, methods, findings, conclusion		10
Source code of report included with other code		10
<i>Subtotal</i>		<i>80</i>
In-class presentation		
5 slides (in Beamer or RMarkdown), consisting of the following:		5
Introduction / explanation of topic		5
Data (collection / description)		5
Methods		5
Findings		5
What did we learn / why is this important?		5
<i>Subtotal</i>		<i>30</i>
Grand total		150
